# How to complete the following form

- List the step-by-step sequence of tasks required to carry out a work activity from start to finish.
- List the potential hazards associated with each step and the related WHS risks.
- List what controls you will implement to reduce the risks to the lowest possible level.
- List the names or positions of the persons responsible for ensuring that the controls are implemented.

A separate SWMS is required for each work activity

# Assessing the risk

RISK	High	Medium	Low
	Potential death, permanent disability or major structural failure/damage.	Hospitalisation or medical treatment, potential temporary disability or minor structural failure/damage.	Hazard that has the potential to cause persons to require first aid.
ACTION REQUIRED	Cease work immediately. Review task/situation/condition. Additional risk controls and must be documented and implemented. Ensure all parties are aware of risk control.	Implement suitable controls as soon as practical. Task/situation/condition to be reviewed and reinforce control measures where applicable.	Review task and reinforce control measures where applicable.

## Hierarchy of controls

|--|

Best Worst

Step	Job step Break the job down into steps. Outline each task to do the job.	Hazards Identification Identify any potential hazards associated with each job step. Assess any risks that could lead to an incident or an adverse environmental impact and rate each risk accordingly.	Risk Rating	Controls Implemented Using the previous two columns as a guide, decide what actions are necessary to eliminate or minimise the hazards that could lead to an accident, injury, occupational illness or environmental impact.	Residual Risk	Person responsible
1.	Allocation of personnel	Struck by vehicle	Н	Only personnel licensed for class of vehicle to be allocated to work. Only personnel inducted on items of plant to be assigned to plant. Where a person has not been inducted on the plant, they will undergo a familiarisation prior to operating the plant.	L	Allocator
		Fatigue m <mark>anagem</mark> ent	Н	Drivers are to comply with legislated breaks and log book requirements.  Drivers are to monitor their fatigue levels and advise the allocator if they feel they are too tired to drive.	L	Driver
				Allocator to ensure that personnel are rostered to enable sufficient rest breaks.  Where minimum rest breaks are not able to be complied with, other measures are to be taken to ensure the safety of personnel, including the provision of relief drivers and taxis	L	Allocator
1.	Pre-Start vehicles	See SOP 03, SOP 04, SOP 05 as required				
2.	Operation of vehicles	Overmass/Overwidth	М	Cranes to be operated in accordance with RMS Permit	L	Driver

Step	Job step Break the job down into steps. Outline each task to do the job.	Hazards Identification Identify any potential hazards associated with each job step. Assess any risks that could lead to an incident or an adverse environmental impact and rate each risk accordingly.	Risk Rating	Controls Implemented  Using the previous two columns as a guide, decide what actions are necessary to eliminate or minimise the hazards that could lead to an accident, injury, occupational illness or environmental impact.	Residual Risk	Person responsible
		Struck by load/ equipment	Н	All vehicles to have equipment secured at all times while moving.	L	Driver
		Struck by load binder	M	Lever type load binders (chain dogs) are not to be used, only ratchet type	L	Driver
		Fall from height	Н	Use of fall barriers where fitted. Load planning to maximise access from ground Use of appropriate access equipment including loading platforms where available	L	Driver
		Struck by other vehicles	Н	All personnel to wear hi-vis clothing or vest when working near moving traffic	L	Driver
		Drugs and alcohol	Н	Persons reporting for duty are to be free of the influence of alcohol or drugs. Alcohol and drugs may not be consumed by any person while on duty.	L	Driver

CHECKLIST OF ITEMS THAT MAY BE REQUIRED FOR THIS WORK ACTIVITY						
Training and qualifications	NCOC Licence for work performed (Crane Driver / Dogman) Drivers Licence valid for type of vehicle driven					
List of relevant legislation, applicable codes of practice or additional references as required	AS2550.1 AS2550.5 NSW WHS Act 2011 NSW WHS Reg 2011 COP Moving plant on construction sites NCOP for the Prevention of Musculoskeletal Disorder from Performing Manual Tasks at Work (2007) NCOPs for the prevention of falls in general construction and in housing construction					
Communication and consultation	All personnel to understand the task, components and sequence of lift, slew path and placement location.  Driver and dogman to have UHF radio and/or whistle contact when operating out of sight.					

## **Declaration by contractors and workers**

- 1. I have been consulted and assisted in the development of this SWMS.
- 2. I have been given the opportunity to comment on the content of this SWMS. I have read and understand how I am to carry out the tasks listed in this SWMS.
- 3. I have been supplied with the appropriate **personal protective equipment** that has been identified on this SWMS and I have been given **training** in the safe use of this equipment.
- 4. I have read and understand the requirements set out in the material safety data sheets for the hazardous substances which have been identified in this SWMS for this particular work activity.
